

Job Description – Market Data Analyst

The Company

Founded in 2001, Expand Research is a specialist firm that provides unique business intelligence and decision support services via benchmarking and market research across the global financial services industry. The majority of Expand's activities are focused on strategic cost benchmarking in technology and operations across a variety of financial services sectors. Go to www.expandresearch.com and explore our product offerings to learn more about our services.

Expand Research is a wholly-owned subsidiary of the Boston Consulting Group, and is headquartered in London with offices in Singapore and New York. We offer candidates the opportunity to work in a stimulating environment in the Square Mile in London or in BCG's offices in the new 10 Hudson Yards development in New York, and maintain a small company feel with regular social events and a highly collaborative working culture.

Job Description

Analysts are encouraged to take responsibility of deliverables on projects ranging from benchmarking activities to bespoke client assignments and industry roundtables. Additionally, Analysts may assist with the management of individual client accounts and be involved in the development of internal initiatives.

While oversight is provided by senior team members, Expand's culture puts emphasis on personal ownership from the very start of an employee's career. Furthermore, Analysts play an active role in all aspects of the project lifecycle, from sales through to initial data collection, analysis, visualization and communication of the findings, allowing for a great deal of diversity on the job and the development of a broad skills set. As the role develops you will have an increasing level of direct client exposure, which in many cases reaches C-level executives.

Job Requirements

Basic Job Requirements

- Bachelor's degree from a top university with a 2:1 (+3.2 GPA) or higher or corresponding equivalent
- Market Data industry experience with proven track record in MD and Business Management
